

Horseytalk.net BRIDLEWAYS WATCH

That Bridleway gate.
Brenda thinks it's the
answer to our prayers .

Says Brenda

"I like this gate. I like it very much! The gates we have on Headley Heath have a number of problems which this gate does not. Riders have told us that the gates on Headley Heath

catch tack with potentially very dangerous consequences. This gate is unlikely to catch stirrups, martingales, reins and bridles. It is not going to snap shut on anyone causing damage to horse and rider. Many of our gates are very quick. This gate allows someone to lead and ride and to long rein. As far as how well it keeps cattle in I do not know. I have never seen one of these."

Do you think this type of gate is the answer to our prayers?
